Founded in 1970, Perkins Slade is one of the UK's largest independent brokers, providing expert, impartial advice and bespoke insurance and risk management solutions for sport and recreation organisations.

In a climate of broker consolidation, Perkins Slade stands out from the crowd. We're proud of our independence, which is perpetuated through extensive employee share ownership.

Our people are our strength, enthusiastic about sport and recreation and committed to our clients. Our advice is based on technical expertise underpinned by an in-depth understanding of your needs.

Our multi-disciplinary teams explore new ways of managing and reducing your risk exposure, developing creative solutions to complex problems.

We have extensive experience across a range of industry sectors including sport, recreation, leisure and entertainment. We work in partnership with established insurers to provide long term stability for our customers, throughout the market cycle.

EXTENSIVE EXPERIENCE

Whether you are looking for a membership scheme for your organisation, personal protection while you are coaching others, or cover for your activity business or club, we can help.

Our extensive experience spans most Olympic and Commonwealth Games sports including tennis, swimming, gymnastics and hockey; major spectator sports such as football and golf and a number of other recreational activities ranging from movement and dance to mountaineering and rambling. We also include others such as paintball sites, outdoor activity centres and indoor climbing walls.

PROVEN TRACK RECORD

We provide insurance and risk management services to over 300 sport and recreation associations and more than 3 million individual participants. We have been the approved insurance brokers to the Central Council of Physical Recreation (CCPR) for over 25 years and we also work with the Scottish and Welsh Sports Associations.

Our established position in this market gives us access to a wide range of policies from insurers specialising in sport and recreation. Our Civil Liability insurance provides comprehensive protection including Public Liability, Products Liability, Professional Indemnity, Directors' and Officers' Liability and Libel and Slander. Critically, for sport, our policies can also include abuse cover. (Please refer to the product guide at the back of this brochure for a more detailed overview.)

We'll conduct an in-depth assessment so we are able to customise cover to meet your needs. We can also provide advice on identifying and managing risks, helping you to control and reduce costs in the long term.

SPORT & RECREATION

BREADTH AND DEPTH

Sport and recreation organisations face a minefield of risk. The potentially hazardous nature of some activities, combined with the impact of changing legislation and a deeply entrenched compensation culture, has made it increasingly important to ensure your business or organisation has comprehensive protection.

Perkins Slade has the expertise to provide complete insurance and risk management solutions to meet the diverse and distinct needs of this sector. We have a breadth of experience covering a wide range of activities and depth of knowledge built over many years.

We take a simple and straightforward approach to this complex market:

Assessment - we won't make assumptions. Our advice will be based on a detailed appraisal of your needs and those of your members.

Advice – we'll search the market to find competitively priced cover matched with your risk profile.

Assistance – we're there to answer queries, provide guidance at renewal and support you through any claims.

DELIVERING BENEFITS

Our long-standing client relationships demonstrate the success of our approach. We work closely with you to develop an in-depth understanding of your business or organisation and the challenges you face.

If you are looking for insurance for your members, we'll develop a scheme with straightforward, comprehensive cover. We'll provide a clear explanation of features and benefits and we'll give you direct access to experts for advice and guidance.

At a time when appropriate cover can be difficult to obtain, proactive risk management is becoming increasingly important. Insurers will look for evidence of a thorough assessment and proof that you've taken steps to manage and reduce the risks you face. We will work with you to implement a robust programme, helping to stabilise premiums over time.
